**Carrier Notification
SN91084123**

Date: June 28, 2004

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (Product/Service) - DS1 Loops Terminated to Another CLEC's Collocation Arrangement

This is to announce that a process will be available that allows a CLEC to order Unbundled Network Element (UNE) DS1 Loops and DS1 Wholesale Sub-Loop Feeder (WSLF) facilities that terminate to another CLEC's collocation arrangement. As part of the new process, the ordering CLEC will be required to obtain a Letter of Authorization (LOA) and the appropriate Connecting Facility Assignments (CFA) from the collocated CLEC. The ordering CLEC will be the responsible party for all recurring and non-recurring charges associated with the requested UNE DS1 Loops or the DS1 WSLF. The collocated CLEC will be responsible for charges associated with activating the CFA.

The process will be available for the DS1 Loop in conjunction with the posting of the Unbundled DS1 Loop CLEC Information Package, Version 4, on July 1, 2004. This process is offered for DS1 Loops until such time that the UNE DS1 Loop is no longer available for ordering.

The process will also be available for the DS1 Wholesale Sub-Loop Feeder offering that is included in the Wholesale Market Agreement. The Wholesale Sub-Loop Feeder CLEC Information Package, Version 1, which will include the new process, will also be available on July 1, 2004.

The Information Packages can be found at the BellSouth Interconnection Services Web site at the following address:
