Date: July 30, 2004

To: Competitive Local Exchange Carriers (CLEC) and Payphone Service Providers (PSP)

Subject: CLECs and PSPs - (LNP) - One-Time Number Pooling Charge for Tennessee

This is to advise that the Tennessee Regulatory Authority (TRA) has authorized BellSouth to recover costs associated with the implementation of Number Pooling trials. These trials have effectively controlled the supply of telephone numbers and have successfully delayed the need for additional area codes in Tennessee. BellSouth will recover these costs through a one-time charge on customer lines as follows:

- Residence lines, Regular Business lines, Unbundled Network Element (UNE) switch port, Feature Group A service, payphone service provider access lines, Basic Rate ISDN (BRI) digital subscriber lines and Centrex Lines: \$0.69 surcharge for each line or port
- Primary Rate Interface (PRI) ISDN lines: \$3.45 surcharge for each PRI
- PBX trunks and MegaLink[®] service or LightGate[®] service Network Access Registers (NAR) : \$6.21 surcharge for each trunk/NAR

The rates can be found in the Tennessee General Subscriber Services Tariffs (GSST), Section A4.6.

These one-time surcharges will appear on bills rendered for September 2004. These surcharges will not apply to Lifeline Assistance program customers.

If you have any questions, please contact your BellSouth account team.

Sincerely,
