**Carrier Notification****SN91084160**

Date: July 15, 2004

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (Documentation/Guides) – Change in the Standard Interval Guide for DS1 Enhanced Extended Links (EEL) in Kentucky

This is to advise that on June 14, 2004, the Kentucky Public Service Commission (KPSC) in case No. 2001-105 required BellSouth to implement the Georgia Performance Plan - Service Quality Measures (SQM) and Self-Effectuating Enforcement Mechanisms (SEEMs) plans in Kentucky. As a result of this requirement, beginning August 1, 2004, the standard interval for DSL EELs in Kentucky will change to the following:

Product	Quantity	Standard Interval	Targeted LSR Processing Interval	Project Managed
DS1 EELs in Kentucky	1-14 circuits	7 business days	See assumption #5	----

The change will be reflected in the update of the Local Ordering Handbook (LOH) Version 16.0c for Telecommunications Industry Forum 9 (TCIF 9) and EDI Local Mechanization Specification 6 (ELMS 6) for Release 16.0 as well as the LOH Version 17.0a for TCIF 9 and ELMS 6 for Release 17.0, scheduled to be posted on September 17, 2004.

These updates can be found on the BellSouth Interconnection Services Web site in the Customer Guides Section at:

<http://www.interconnection.bellsouth.com/guides>

If you have any questions, please contact your BellSouth local support manager.

Sincerely,

**ORIGINAL SIGNED BY JERRY HENDRIX**

Jerry Hendrix Assistant Vice President
