Carrier Notification
SN91084184

Date: November 1, 2004

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (Product/Service) – **REVISED** - Update to the Non-Basic Inside Jacks and
                  Wiring Ordering Process (Latest revision posted on August 25, 2004)

This is to advise that on July 25, 2004, ordering non-basic inside wiring and jacks became a
mechanized process. This update is also associated with Change Control Process (CCP) No. 1978,
TYPE 6.

When submitting a Local Service Request (LSR) electronically, the following REQTYPs are applicable:

        A – Loops (Designed and Non-Designed)
        B – Loops (Designed and Non Designed) with NP (where NPT = D)
        E – Resale when 2nd position of TOS is H (ISDN BRI) & J (PBX)
        N – PBX/DID when 2nd position of TOS is J (PBX) & Q (DID where AD = C)

Notwithstanding the foregoing, when requesting non-basic inside wiring and jacks for REQTYP A and B
for an Unbundled Network Element (UNE) designed loop, CLECs must continue to submit LSRs
manually in Georgia – Out State, South Florida and Southeast Florida. Please refer to the following
area codes for further clarification:

        South Florida = 305, 786, 727, 941
        Southeast Florida = 561, 954, 631, 772, 754
        Georgia – Out State = 706, 912, 478, 229

Also, for REQTYP A & B, the Associated Account Number (AAN) field of the LSR must contain the pre-
assigned miscellaneous account number, which is assigned automatically as the LSR processes. The
AAN field <u>must not</u> be changed to a different miscellaneous account number, i.e., BellSouth Premise
Service (BPS) permanent miscellaneous account number. A change in the pre-assigned
miscellaneous account number in the AAN field will result in an error on the LSR, and cause the LSR to
be returned to the CLEC for clarification.

**Additionally, when submitting a request for a Network Interface Device only, please submit the
LSR manually. For such requests, BellSouth systems are currently rejecting LSRs with the
following error message:**

        LSG00967 BAN1 DOES NOT MATCH BAN IN THIS SITE (RAO) FOR THIS REQTYP

**For the exceptions cited above, BellSouth will bill the SOMEC charge in lieu of the SOMAN
charge. Please add the following information in the REMARKS section of the LSR: "NID
SOMEC"**

Specific product ordering information can be found on the BellSouth Interconnection Services Web site located at:

http://www.interconnection.bellsouth.com

Please contact your BellSouth local support manager with any questions.

Sincerely,
