Carrier Notification**SN91084194**

Date: August 11, 2004

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (Documentation/Guides) - Modifications to the BellSouth Due Date Interval for Analog Non-Designed Loops (SL1) and Analog Designed Loops (SL2)

This is to advise that effective September 17, 2004, in accordance with Change Request (CR) No. 1988, BellSouth will modify the due date interval for SL1 and SL2 loops to remove the restriction of negotiated due dates and replace the restriction with a standard interval for 15-30 loops. Although the requests involving 15-30 loops will have a standard interval, BellSouth will continue to project manage such requests.

The modification to the due date intervals will be published in the BellSouth Interval Guide within the Local Ordering Handbook (LOH). Please refer to the attachment for specific details of the changes.

A summary of all changes within the document will be listed in the **Summary of Changes** Section.

This update can be found on the BellSouth Interconnection Services Web site in the Customer Guides Section at:

<http://interconnection.bellsouth.com/guides/html/usoc.html>

Please contact your BellSouth local support manager with any questions.

Sincerely,

ORIGINAL SIGNED BY JERRY HENDRIX

Jerry Hendrix – Assistant Vice President
BellSouth Interconnection Services
