Atlanta, Georgia 30375

**Provider Notification  
SN91085134**

Date: July 11, 2005

To: Facility-Based Competitive Local Exchange Carriers (CLEC), Voice over Internet Protocol (VoIP) Service Providers and Wireless Service Providers (WSP)

Subject: Facility – Based CLECs, VoIP Service Providers and WSP – (Product/Service and E9-1-1) Introducing BellSouth VoIP E9-1-1 Service Offering

This is to advise that BellSouth is responding to the rapid change in the way people communicate today by offering VoIP service providers (VSP) who are providing voice services to end users the opportunity to purchase direct connection to each of BellSouth's sixty-four (64) E9-1-1 Selective Routers for purposes of providing E9-1-1 to their end users customers.. In addition to the E9-1-1 options already available to VSPs, BellSouth is committed to expeditiously developing this direct E9-1-1 offering for sale to VSPs.

This product is being modeled after BellSouth's wireless E9-1-1 offering, which allows for direct connection to each of the BellSouth E9-1-1 Selective Routers and provides the capability for the VSP to send calling party location information associated with each 911 call. BellSouth's offering will enable Public Safety Answering Points (PSAP) to receive a VoIP 911 caller's callback number and the address location information as provided by the service provider. This information will be similar to that received by PSAPs from standard wired and wireless callers. This information is particularly helpful in a case where the caller has to leave the phone quickly or can no longer talk on the phone. To enable transmission of this information, VSPs must provide current location information and keep such information updated in a timely manner as customers relocate their Customer Provided Equipment (CPE) to make VoIP calls from locations other than their registered service address.

Following technical trial and process validation work, BellSouth anticipates making this service offering available to all interested VSPs offering voice services to end users by August 15<sup>th</sup>, 2005

Please contact your BellSouth account representative with any questions...

Sincerely,

**ORIGINAL SIGNED BY JERRY HENDRIX**
