**Carrier Notification  
SN91085154**

Date: August 12, 2005

To: All Telecommunications Carriers

Subject: All Telecommunications Carriers – (Billing) - Billing Option Change to a Multiple Bill Arrangement for RCC Holdings, Inc. in the states of Alabama and Mississippi

This is to advise of a new billing arrangement being implemented between BellSouth and RCC Holdings, Inc. in the states of Alabama and Mississippi. This new arrangement is known as multiple billing and is associated with Tandem Level Type 2A and Type 2D Wireless Interconnections.

Multiple billing occurs when subscribers of one telecommunications carrier, either a Competitive Local Exchange Carrier (CLEC), Commercial Mobile Radio Service (CMRS) Provider, Independent Company (ICO) or Interexchange Carrier (IXC), originate telecommunications traffic that is terminated to subscribers of another telecommunications carrier through a third telecommunications carrier's network. In this environment, each telecommunications carrier may bill the Originating Carrier for its portion of the telecommunications services provided. The Multiple Exchange Carrier Access Billing (MECAB) document, prepared by the Ordering and Billing Forum (OBF), establishes the guidelines for billing when multiple telecommunications carriers are involved in providing telecommunications service.

Effective with switched access usage and/or telecommunications traffic generated beginning on September 30, 2005, the billing option for RCC Holdings, Inc. in the states of Alabama and Mississippi will be changed to a multiple bill arrangement. In accordance with OBF guidelines, where such traffic is routed through BellSouth's network, BellSouth will provide call detail records to the terminating carrier for the telecommunications traffic originated by and/or terminated to RCC Holdings, Inc.

Please contact your BellSouth account team representative with any questions.

Sincerely,
