Atlanta, Georgia 30375

**Carrier Notification
SN91085192**

Date: September 23, 2005

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (Product/Service) - True-Up of Off Premises Extension /Different Premises
Address Accounts - Resale Uniform Service Order Codes

At the request of the CLEC community, BellSouth developed the network elements equivalent for Off Premises Extension/ Different Premises Address (OPX/DPA) services in July 2003. Initially, Resale Uniform Service Order Codes (USOC) was used to identify and bill for these services. Once the network element USOCs were developed, the Resale USOCs were no longer valid for Unbundled Network Elements-Platform (UNE-P) - now Wholesale Local Platform (WLP). These network elements and the appropriate network element USOCs were placed in BellSouth's Standard Interconnection Agreement at that time, and many CLECs signed amendments to begin ordering these UNEs.

Beginning in October 2005, BellSouth will convert the Resale USOCs OPX/DPA to the proper network element USOCs for those CLECs that have the network element USOCs in their contracts but still have end user accounts that reflect invalid Resale USOCs. This conversion will take place at the customer service record (CSR) level only and the CLEC will incur no service order or Operation Support System (OSS) costs.

If you have any questions, please contact your BellSouth local contract manager.

Sincerely,
