Subject: CLECs – (Billing and Interconnection/Contractual) – **REVISED** - Retroactive Billing of Transitional Rates for Unbundled Network Element-Platform Service as Authorized in the Triennial Review Remand Order (previously posted on April 13, 2006)

As you are aware, BellSouth began retroactively billing the transitional rates for Unbundled Network Element-Platform (UNE-P) service as authorized in the Triennial Review Remand Order (TRRO) for the following three scenarios:

1. CLECs that have signed a TRRO Compliant Amendment or Interconnection Agreement
 - a. In-service lines will be billed the \$1.00 transitional rate through the billing system retroactive to March 11, 2005. This charge will appear on the Other Charges and Credits (OC&C) portion of the bill.
 - b. Lines that were disconnected during the transition period, i.e., from March 11, 2005, through March 10, 2006, will be billed the \$1.00 transitional rate only for the time that they were in-service during the transition period.
2. CLECs that have executed Change of Law Amendments in those states that have issued Change of Law Orders
 - a. The \$1.00 transitional rate for both in-service lines and lines that were disconnected during the transition period will be calculated and manually back-billed to March 11, 2005, in accordance with the Change of Law Amendments.

On February 20, 2007, supporting documentation and CLEC specific detailed data for this scenario will be available via the BellSouth Performance Measurement Analysis Platform (PMAP) Web site at:

<https://pmap.bellsouth.com/auth/default.aspx?action=loginb>

3. CLECs that have signed an "Interim Rules" amendment that automatically incorporates state generic Change of Law Orders

- a. The \$1.00 transitional rate for both in-service lines and lines that were disconnected during the transition period will be calculated and manually back billed to March 11, 2005, in accordance with each state's Change of Law Order.
