Date: September 28, 2006

To: All Business Markets – Wholesale Customers

Subject: All Business Markets – Wholesale Customers – (Tariff and Billing) – Implementing Changes to the Nonrecurring Charge for Reconfigurations of the BellSouth® Metro Ethernet

This is to advise that, effective October 19, 2006, BellSouth will change the conditions under which the BellSouth® Metro Ethernet reconfiguration nonrecurring charge is applied for a customer request to reconfigure an existing Metro Ethernet connection.

Currently, a reconfiguration nonrecurring charge is applicable for a customer request to reconfigure an existing BellSouth Metro Ethernet connection to a different BellSouth Metro Ethernet connection that is a higher order of service, as defined in the BellSouth Tariff FCC No. 1, Section 7.4.32 (B). This filing will remove the reconfiguration charge for changes that constitute a higher order of service. Reconfiguration nonrecurring charges will continue to be applied when a customer requests to reconfigure an existing BellSouth Metro Ethernet connection to a different BellSouth Metro Ethernet connection that is a lower order of service.

In addition, effective September 15, 2006, the reconfiguration nonrecurring charge for changes to a higher order of service were removed from the State Access E Tariff, Section E7.4.32.

Should you have any questions, please contact your BellSouth account team representative.

Sincerely,
