Date: December 19, 2006

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (OSS) - CLEC Application Verification Environment Availability, ENCORE
               Release 24.0 and Local Number Portability, Release 24.0

This is to advise that, on February 9, 2007, BellSouth will complete deployment of ENCORE Release
24.0 and Local Number Portability (LNP) Release 24.0 in CLEC Application Verification Environment
(CAVE). CAVE will be available for testing Release 24.0 beginning February 12, 2007. The 24.0
Telecommunications Access Gateway (TAG) Extensible Markup Language (XML) will also become
available for testing at that time.

In order to effectuate the implementation of Release 24.0, CAVE will be unavailable for all testing from
February 5, 2007, through February 9, 2007.

Please refer to the attached table for details of the release.

CLECs who would like the opportunity to test Release 24.0, or who have additional questions regarding
this notice, should contact their BellSouth electronic commerce account team.

Sincerely,
