Date: March 21, 2007

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (OSS and Maintenance) - Extended Maintenance Window for Electronic Communications Trouble Administration

On March 25, 2007, BellSouth Telecommunications, Inc. d/b/a AT&T Southeast (AT&T) will install system software patches on the interface between Electronic Communications Trouble Administration (ECTA) and Loop Maintenance Operation System (LMOS). ECTA is normally down for scheduled maintenance on Sundays from 2:50 AM until 3:30 AM. However, during the installation of the aforementioned system software patches, CLECs using ECTA will be unable to generate or update non-designed trouble reports from 9:00 PM CDT Sunday, March 25, 2007 until 5:00 AM CDT Monday, March 26, 2007.

Installation of these system software patches will have no impact on the processing of designed system trouble reports via ECTA.

Please contact your AT&T account team representative if you have any questions.

Sincerely,
