**Carrier Notification**  
**SN91087070**

Date: April 26, 2007

To: All Business Markets Customers

Subject: All Business Markets Customers – (Billing, Product /Services and Tariff) –  
Enhancements to the Wavelength Dedicated Ring Service to Allow a 10 Gbps Local  
Area Network Wavelength Service

On June 2, 2007, BellSouth Telecommunications, Inc., d/b/a AT&T Southeast (AT&T) will enhance the BellSouth Tariff FCC No. 1, Section 29, to broaden the Wavelength Service to allow a 10 Gbps Local Area Network (LAN) Wavelength service for Wavelength Channel service, Local Channel and Interoffice Channel. The 10 Gbps LAN Wavelength, Local and Interoffice Channels will be available as an unprotected wavelength or with Channel Network Protection, if there is no connectivity to a Wavelength Dedicated Ring service. For the 10 Gbps Wavelength Channels that do connect to a Wavelength Dedicated Ring service, Optical Network Protection will be available.

Ordering and implementation may begin on the tariff effective date. Carrier Access Billing System (CABS) bills will be rendered in the same manner that existing bills are rendered today. In addition, the CABS bill will reflect the appropriate Uniform Service Order Code (USOC) for the services ordered.

To take advantage of these offerings, or if you have any questions, please contact your AT&T account team representative.

Sincerely,

**ORIGINAL SIGNED BY KRISTEN E. SHORE**
