Response Deadline:	<b>NA</b>	Contact:	<b>Electronic Commerce Account Team</b>

AT&T Southeast Region (AT&T) is posting this Accessible Letter to revise the dates set forth in Carrier Notification Letter SN91087073, dated April 30, 2007, for the deployment of Encore Release 25.0 and Local Number Portability (LNP) Release 25.0 in CLEC Application Verification Environment (CAVE). These revisions are being made to account for the fact that Memorial Day and Independence Day are holidays that will be observed during the testing period. As such, AT&T is revising impacted testing implementation dates as shown in bold below.

On **May 23, 2007**, AT&T will complete deployment of ENCORE Release 25.0 and Local Number Portability (LNP) Release 25.0 in CLEC Application Verification Environment (CAVE). CAVE will be available for testing Release 25.0 beginning **May 24, 2007**. The 25.0 Telecommunications Access Gateway (TAG) Extensible Markup Language (XML) will also become available for testing at that time.

In order to effectuate the implementation of the release, the CAVE environment will be unavailable for all testing from **May 18, 2007**, through **May 23, 2007**.

Please refer to the attached table for details of the release.

CLECs who would like the opportunity to test or have additional questions regarding this notice should contact their AT&T electronic commerce account team.
