The summary of changes for the initial (first) publication of each LOH release will list only the release-related changes. The initial release of the LOH is considered a new document and should be reviewed in its entirety. Changes may impact any or all sections of the LOH and can affect multiple product and activities.

## Definitions

### Release:

The **release** number of each Handbook (i.e.: 36) will correspond to the AT&T Southeast Region (formerly BellSouth) software release that it applies to.

### Carrier Notifications:

Carrier Notification letters apply only to documentation defects. The format shown in the Summary of Changes table is "SN" and the last 4 digits of the Notification letter number. "N/A" is shown for changes that are not documentation defects.
