Introduction-

This manual contains instructions for the Product and Service Ordering process.

Notice

BellSouth Telecommunications, LLC. d/b/a AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina and AT&T Tennessee (collectively referred to for purposes of this document as “AT&T Southeast Region,” “AT&T 9-State,” or “AT&T-SE”) reserves the right to revise this document for any reason, including but not limited to, conformity with methods or procedures described or referred to herein.

LIABILITY TO ANYONE ARISING OUT OF USE OR RELIANCE UPON ANY INFORMATION SET FORTH HEREIN IS EXPRESSLY DISCLAIMED, AND NO REPRESENTATIONS OR WARRANTIES EXPRESSED OR IMPLIED, ARE MADE WITH RESPECT TO THE ACCURACY OR UTILITY OF ANY INFORMATION SET FORTH HEREIN.

NO WARRANTIES:

ANY AT&T KNOWLEDGE VENTURES MATERIAL OR MATERIAL OF ANOTHER OF THE AT&T COMPANIES ON THIS SITE MAY INCLUDE TECHNICAL INACCURACIES OR TYPOGRAPHICAL ERRORS.

AT&T Wholesale Re-Branding

AT&T 9-State Wholesale is in the process of re-branding external systems, documentation, email addresses, web urls, etc. The LOH-Local Ordering Handbook documents are included in this process. The rebranding of this document will not impact the format or the document intent.

When the legacy BellSouth name is used on documents, web sites, or applications, it means that such documents, web sites or applications are applicable to wholesale customers operating in the former BellSouth 9-state region.

Preface

The information contained within this document is an AT&T Southeast Region customized version of the Ordering & Billing Forum (OBF) industry consensus guidelines. The rules contained within this document are AT&T-SE specific and have been modified to accommodate local order processing within AT&T-SE.

This document addresses the processes and business rules for **Local** Service Requests (LSR) only. AT&T Southeast Region offers additional services (such as Local Interconnection Trunking) to Facility Based CLECs through the **Access** Service Request (ASR). For more information on ASRs, refer to the *Access Service Ordering Guidelines* (ASOG) and the *Guide to Interconnection*. The ASOG is published by the Alliance for Telecommunications Industry Solutions (ATIS) and is available at the ATIS web site: <http://www.atis.org>

The AT&T Southeast Region Guide to Interconnection is available for download at: <http://wholesale.att.com/>. Additionally, this document is not intended as a programming guide. CLECs should refer to the XML website https://clec.att.com/clec_xmlsupport for programming requirements for XML. Please refer also to the 9-State LSOR Volume II, Section 4.1 *Extensible Markup Language (XML)*.

Purpose

The purpose of this document is to:

- Provide local service ordering instructions for CLECs that offer local telecommunications services utilizing Resale Services or Unbundled Network Elements (UNEs).
- Provide a common point of reference to simplify the manual and electronic ordering processes for CLECs that conduct business with AT&T-SE and have converted to ELMS Issue 10 and/or LSOG 10.

A manual process entails submitting Local Service Requests via a 22-state AT&T Manual LSR forms (by Email). It is highly recommended that CLECs have access to the Internet and the World Wide Web as AT&T Southeast Region provides a wealth of information to its customers in this format and much of this document is used in conjunction with other documents that are posted on the Internet for the CLECs' convenience.

An electronic process entails submitting Local Service Requests via an AT&T Southeast Region approved electronic interface. More information on the electronic interface options available to CLECs can be found at <http://wholesale.att.com>.

CAUTION

This document provides detailed information generally applicable in the nine states served by AT&T Southeast Region. However, due to individual state regulatory agency rules and decisions, aspects of this ordering guide may or may not apply differently in an individual state. CLECs should contact the respective AT&T-SE Account Team to confirm the applicability in a particular state.

Audience

This document has been developed for the CLECs interested in the business rules used in conjunction with submitting manual and electronic local service order requests. This document assumes that a CLEC has completed all the start-up and activation requirements and is now ready to process AT&T Southeast Region service requests. If a CLEC has not completed all the proper start-up and activation requirements, refer to <http://wholesale.att.com>.

Please also refer to 9-State LSOR Volume II, Section 3a. Form Descriptions; and under LSOR Volume III, Section 6.3 LSR Form Fields and all other Product Forms.

Description:

Local Ordering Handbook (LOH) guidelines incorporate the following requirements for the population of fields:

- **Required** is defined as the field *MUST* be populated and when populated incorrectly/incompletely, the LSR will be clarified.
- **Conditional** is defined as the *field is dependent upon the relationship to another entry* as specified in the usage statement and is *dependent upon the presence, absence or combination of other data entries* and if populated incorrectly/incompletely, the LSR may be clarified.
- **Optional** is defined as the field *may or may not* be populated and if populated incorrectly/incompletely, the LSR may be clarified.
- **Not Supported** is defined as this field *is not used by AT&T Southeast Region* and when populated will be ignored by AT&T Southeast Region. The Not Supported fields will not be shown in the Required, Conditional and Optional (R/C/O) tables, but will be reflected in the Local Service Ordering Requirements (LSOR).
- **Prohibited** is defined as this field *must NOT* be populated and when populated, the LSR will be clarified by AT&T Southeast Region. The Prohibited fields are not shown in the Required, Conditional and Optional (R/C/O) tables, but 'prohibited' occurrences are defined inLSOR.
