

Web Site News As Of April 06, 2010

Welcome to the Performance Measurements web site for Illinois, Indiana, Michigan, Ohio & Wisconsin.

**December 2009 results are now available for Illinois, Indiana, Michigan, Ohio & Wisconsin.
Effective January 20:**

December 2009 performance results for AT&T performance measurements are now available.

Recalculated and Reposted Performance Measures:

Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- October 2009 results for performance measure 70 in Ohio have been recalculated and reposted to remove extraneous data included in results due to a data processing error.
- October and November 2009 results for performance measure 5 have been recalculated and reposted to correct a program logic error that resulted in some orders being excluded from results.

Please Note:

It has been discovered that a data processing error has resulted in some calls not being included with December 2009 results for performance measure 70. This issue impacts a single CLEC only. Efforts are under way to fix this error and it is expected that corrected results will be published February 20, 2010.
