

Web Site News As Of February 05, 2008

Welcome to the Performance Measurements web site for Illinois, Indiana, Michigan, Ohio & Wisconsin.

**December 2007 results are now available for Illinois, Indiana, Michigan, Ohio & Wisconsin.
Effective January 21:**

2006 Six-Month Review Performance Measures Change Implementation:

Implementation of the 2006 Six-Month Review performance measurement changes has taken place with December 2007 performance results. Due to system limitations, certain results for Michigan performance under version 2.5 PMs are appearing on the website under the version 3.0 PM. For example, PM 58 results in Michigan are appearing under PM 29. This is a display only issue - the results have been generated under the Version 2.5 logic. You may see this issue under PMs 6, 22, 29, 30, 35, 37.1, 38, 39, 40, 41, and 63. This issue is expected to be corrected no later than the posting of January results in February. Measures discontinued under Business Rules Version 3.0 continue to be reported in Michigan under Business Rules Version 2.5. Notes have been entered as required on all submeasures to reflect how measures are being reported to accommodate the limitations of our system.

Please Note:

- As noted here with the April 20, 2006 posting, AT&T has discovered a problem with the Affiliate results for PM 65.1 8dB Loop measurement for the states of Illinois, Indiana, Ohio, and Wisconsin. The number of loops identified as "in-service" in calculating the Affiliate 8dB Trouble Report Rate has been found to be overstated. While the correct volume is being identified, the following steps have been taken: 1) March 2006 through current results are reported against the Retail compare only - no Affiliate result has been generated; and 2) Remedies for February 2006 through current have been calculated against Retail only, as Affiliate performance is expected to improve once the correct volume is determined and restatement is made. Once the correct in-service volume has been determined, February and March 2006 results (and any subsequent months affected) will be restated, with any additional remedies due CLECs, or overpayments made by AT&T, handled according to the terms of the applicable remedy plan.
