

Web Site News As Of February 20, 2008

Welcome to the Performance Measurements web site for Illinois, Indiana, Michigan, Ohio & Wisconsin.

**December 2007 results are now available for Illinois, Indiana, Michigan, Ohio & Wisconsin.
Effective February 05:**

Recalculated and Reposted Performance Measures:

Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- July through October 2007 results for performance measure 25 have been recalculated and reposted to incorporate a change in data processing procedures that resulted in Retail results not being reported.
- November 2007 results for performance measure 37.1 in Illinois have been recalculated and reposted to correct a single ticket inadvertently coded as Resale that should have been coded as Retail.
- December 2007 results for performance measure 37.1 in Illinois, Indiana, Ohio, and Wisconsin have been reposted to correct for an improperly implemented change required by the 2006 Six-Month Review that prevented the display of results.
- December 2007 results for performance measures 5 and 13 in Illinois, Indiana, Ohio, and Wisconsin have been reposted to display results inadvertently omitted with the implementation of 2006 Six-month Review changes.
- December 2007 results for performance measure 58 has been recalculated and reposted to correct a data processing problem that resulted in some orders not being properly included in reported results.

Please Note:

- The AT&T Raw Data Web Site was posted on January 7, 2008 and can be accessed via the link provided at the very bottom of this page (labeled "Raw Data Request Process"). December data is available for PMs 1.1, 1.3, 4, 5, 7.1, 10, 12, 13, 13.1, 17, 21.1, 22, 22.1, 24.1, 25, 29-30, 35, 37.1, 38-41, 43-47, 49, 50, 52, 53, 54.1, 55, 55.2, 56, 56.1, 58-60, 62, 63, 65.1, 66-71, 73, 75, 76, 78, 91, 96-102, 104, 105, 107, 109, 110, 112-115.2, 117, 119-120, 124, 124.1, CLEC WI 1, CLEC WI 5, CLEC WI 6, CLEC WI 7, CLEC WI 8, CLEC WI 9, CLEC WI 11, C BLG 3, C BLG 4, C BLG 5, IN 1, MI 2, MI 11, MI 13, MI 15, WI 1, WI 2 and WI 9.
- As noted here with the April 20, 2006 posting, AT&T has discovered a problem with the Affiliate results for PM 65.1 8dB Loop measurement for the states of Illinois, Indiana, Ohio, and Wisconsin. The number of loops identified as "in-service" in calculating the Affiliate 8dB Trouble Report Rate has been found to be overstated. While the correct volume is being identified, the following steps have been taken: 1) March 2006 through current results are reported against the Retail compare

only - no Affiliate result has been generated; and 2) Remedies for February 2006 through current have been calculated against Retail only, as Affiliate performance is expected to improve once the correct volume is determined and restatement is made. Once the correct in-service volume has been determined, February and March 2006 results (and any subsequent months affected) will be restated, with any additional remedies due CLECs, or overpayments made by AT&T, handled according to the terms of the applicable remedy plan.
