

## Web Site News As Of February 21, 2005

Welcome to the SBC Midwest Performance Measurements web site.

January 2005 performance results for SBC Midwest performance measurements are now available.

### *Please Note:*

- A display issue that caused aggregate level data for the compromise plan in Illinois, Indiana, and Wisconsin not to be displayed has been corrected. This display issue had no impact on determination of "make" or "miss" on any PMs for either Tier 1 or Tier 2 reporting.
- The CLEC Website Performance Measures page has been enhanced to improve navigation, report preparation, and data extraction. Major enhancements include options to pull data for multiple states in the same request, for multiple PM's and/or specific Sub-measures in the same request, and to select active or Inactive Sub-measures. In addition, the PM and Sub-measure descriptions are now listed in numerical order similar to the User Guide, and improved instructions have been added to support the new features/options.
