### ***Recalculated and Reposted Performance Measures:***

Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- December 2009 results for performance measure 39 have been reposted to correct a data processing error that caused Resold Specials results not to display.
- June through August 2009 results for performance measures 35, 37.1, 38, 39, 40, and 41 have been recalculated and reposted to correct a coding error that inflated the number of trouble reports.
- January 2010 results for performance measure 70 in Illinois have been recalculated and reposted to correct a data processing error that inverted the AT&T End Office to CLEC and AT&T Tandem to CLEC End Office results of several CLECs.
