

Web Site News As Of April 24, 2007

Welcome to the Performance Measurements web site for Illinois, Indiana, Michigan, Ohio & Wisconsin.

**February 2007 results are now available for Illinois, Indiana, Michigan, Ohio & Wisconsin.
Effective April 05:**

Recalculated and Reposted Performance Measures:

Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- November 2006 through January 2007 results for performance measure 56 have been recalculated and reposted to include records omitted from reporting due to a coding error.
- December 2006 results for performance measures 16 and 19 have been recalculated and reposted to remove data for January inadvertently included due to a data file processing error.
- January 2007 results for the "Provisioning Calls" submeasure of performance measure 25 have been recalculated and reposted to remove additional records from the denominator included due to a data processing error.
- January 2007 results for performance measure 44 have been recalculated and reposted to include records omitted from reporting due to a coding error.
- February 2007 results for performance measure IN1 have been recalculated and reposted to correct a data processing error that resulted in some records being incorrectly identified as "misses."

Please Note:

- The AT&T Raw Data Web Site was posted on April 5, 2006 and can be accessed via the link provided at the very bottom of this page (labeled "Raw Data Request Process"). February data is available for PMs 1.1, 1.3, 4, 5, 7.1, 10, 12, 13, 13.1, 17, 21.1, 22, 22.1, 24.1, 25, 29-30, 35, 37.1, 38-41, 43-47, 49, 50, 52, 53, 54.1, 55, 55.2, 56, 56.1, 58-60, 62, 63, 65.1, 66-71, 73, 75, 76, 78, 91, 96-102, 104, 105, 107, 109, 110, 112-115.2, 117, 119-120, 124, 124.1, CLEC WI 1, CLEC WI 5, CLEC WI 6, CLEC WI 7, CLEC WI 8, CLEC WI 9, CLEC WI 11, C BLG 3, C BLG 4, C BLG 5, IN 1, MI 2, MI 11, MI 13, MI 15, WI 1, WI 2 and WI 9.
- As noted here with the April 20, 2006 posting, AT&T has discovered a problem with the Affiliate results for PM 65.1 8dB Loop measurement. The number of loops identified as "in-service" in calculating the Affiliate 8dB Trouble Report Rate has been found to be overstated. While the correct volume is being identified, the following steps have been taken: 1) March 2006

through May 2006 results are reported against the Retail compare only - no Affiliate result has been generated; and 2) Remedies for February 2006 through April 2006 have been calculated against Retail only, as Affiliate performance is expected to improve once the correct volume is determined and restatement is made. Once the correct in-service volume has been determined, February and March 2006 results (and any subsequent months affected) will be restated, with any additional remedies due CLECs, or overpayments made by AT&T, handled according to the terms of the applicable remedy plan.
