Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- February 2009 results for performance measure 37.1 have been recalculated and reposted to correct a data processing problem that resulted in Retail denominators not being displayed for some disaggregations.
