***Recalculated and Reposted Performance Measures:***

Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- November 2011 through February 2012 results for performance measure 6 have been recalculated and reposted to correct a calculation problem that caused some make orders to be recorded as misses.
- February 2012 results for performance measure 70 have been recalculated and reposted to correct a format problem with an input file that caused the results of some CLECS not to be posted.
