

Web Site News As Of June 5, 2006

Welcome to the Performance Measurements web site for AT&T operations in Illinois, Indiana, Michigan, Ohio, and Wisconsin.

April 2006 performance results for AT&T performance measurements are now available.

Recalculated and Reposted Performance Measures:

Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- October 2005 results for performance measure 102 have been recalculated and reposted to display Retail results inadvertently included with Wholesale results.
- June 2005 through March 2006 results for performance measure CB 3 have been recalculated and reposted to include notices omitted from results as the result of a logic problem.
- March 2006 results for performance measure WI 9 have been recalculated and reposted to include records omitted from results as the result of a logic problem.
- March 2006 results for performance measures 37.1, 54.1, and 65.1 have been recalculated and reposted to include line counts omitted from the denominator as a result of a logic problem.
- August through November 2005 results for performance measure 65.1 have been recalculated and reposted to correct logic problems that resulted in Retail results being incorrectly reported, Wholesale UNE-P being under reported, and geographic disaggregations not being displayed.
- April 2006 results for performance measures 5, 7.1, 13, and 13.1 in Indiana, Michigan, Ohio, and Wisconsin have been recalculated and reposted to remove UNE-P erroneously included in results as the result of a coding problem.
