

Web Site News As Of July 20, 2004

Welcome to the SBC Midwest Performance Measurements web site.

June 2004 performance results for SBC Midwest performance measurements are now available.

2003 Six-Month Review Performance Measurement Change Implementation:

Implementation of the 2003 Six-Month Review performance measurement changes began with February 2004 performance results. The 2003 Six-Month Review Agreed-To Measurement Change Implementation Schedule indicates the performance measurements that were implemented on March 22, 2004, April 20, 2004, May 20, 2004, June 21, 2004, and July 20, 2004 as well as targeted implementation dates for other performance measurements. The Schedule along with an Implementation Tracking Worksheet is available on the Performance Measures section of the CLEC OnLine web site.

Effective with July Reporting:

- PMs 5, 10, CLEC BLG 4, and CLEC BLG 5 have been updated to reflect all agreed to measurement changes, including changes to definitions, exclusions, calculations, benchmarks, disaggregations, and remedies.
- Individual CLEC performance results under the "Compromise Plan" selection will only be available for those CLECs who have specifically amended their ICA to participate in that plan. All CLEC's individual results will continue to be available, with proper authorization, under the "State Performance Measures" selection. This selection provides results for the set of performance measures approved by the respective state commissions in either the Section 271 docket or a stand-alone proceeding.
