

Web Site News As Of July 21, 2003

Welcome to the SBC Midwest Performance Measurements web site.

June 2003 performance results for SBC Midwest performance measurements are now available.

Business Rules:

The SBC/Ameritech Performance Measurements User Guide Version 1.8, the color-lined Version 1.9 and the 2002 Six-Month Review Agreed-To Measurement Change Implementation Schedule have been moved to the Historical Business Rules section. The "clean" SBC/Ameritech Performance Measurements User Guide Version 1.9 is accessible via the link shown below. All versions of the User Guide are accessible via the User Guide links at the bottom of the page.

SBC/Ameritech has identified a number of conflicts within the SBC/Ameritech Performance Measurement User Guide Version 1.9. The matrix outlining these know/identified business rules conflicts will be updated as needed and is located at [Conflict Matrix](#). SBC Midwest expects to address these conflicts in the next six-month review collaborative.

Recalculated and Reposted Performance Measures:

PM 97 has been recalculated and reposted for May 2003 in Ohio to include additional source data not included in the originally posted results. Lack of this data in the original results caused LNP telephone numbers that were associated with a project to be improperly identified as misses.

Please note:

- The LSOG 6 release (replacing LSOG 4 and MORTEL) took place on June 13, 2003 through June 14, 2003 affecting the availability of the Electronic Ordering and Pre-Ordering Systems. The specific system downtimes were outlined in Accessible Letter CLECALLS03-077.
- Effective with June 2003 performance results, Illinois data shown under the "State Performance Measurements" option is reported using the Section 271 Remedy Plan approved by the Illinois Commerce Commission in Docket 01-0662. This remedy plan is available in the "Remedy Plan Information" section below and can be accessed via the "Illinois Remedy Plan Description (271 Comp2)" link.
