Welcome to the SBC Midwest Performance Measurements web site.

July 2005 performance results for SBC Midwest performance measurements are now available.

Recalculated and Reposted Performance Measures:

Listed below are the measures for which previously reported results have been recalculated and reposted. SBC/Midwest makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- June 2005 results for performance measures 114, 114.1, 115, 115.1, and 115.2 have been recalculated and reposted to correct for a programming error that prevented some orders from being included in reported results.
- June 2005 results for performance measure 4 have been recalculated and reposted to correct for a data collection error that resulted in an inaccurate denominator being reported.

Please Note:

- Performance measure 59 CLEC results column headers for some disaggregations have been reworded to accurately describe reported results.
