Effective September 20:

Recalculated and Reposted Performance Measures:

Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- April through June 2011 results for performance measure 6 have been recalculated and reposted to correct a coding problem that resulted in some manual orders being reported as electronic.
- June 2011 results for performance measure 39 have been recalculated and reposted to include orders omitted from results due to a manual processing error.
