

## **Web Site News As Of October 22, 2007**

Welcome to the Performance Measurements web site for Illinois, Indiana, Michigan, Ohio & Wisconsin.

**August 2007 results are now available for Illinois, Indiana, Michigan, Ohio & Wisconsin.  
Effective October 05:**

### ***Recalculated and Reposted Performance Measures:***

Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- April, June, and July 2007 results for performance measure 65.1 have been recalculated and reposted to remove affiliate non-UNE circuits inadvertently included in the DS1 Loop results disaggregation due to a coding error.
- May through July 2007 results for performance measures 114, 114.1, and 115 in Indiana have been recalculated and reposted to correct a coding problem that resulted in time-stamps on some orders reflecting the wrong time zone.
- June through July 2007 results for performance measures 24.1 and 25 have been recalculated and reposted to remove extraneous records inadvertently included in results due to a data processing error.

### ***Please Note:***

- The AT&T Raw Data Web Site was posted on October 5, 2007 and can be accessed via the link provided at the very bottom of this page (labeled "Raw Data Request Process"). August data is available for PMs 1.1, 1.3, 4, 5, 7.1, 10, 12, 13, 13.1, 17, 21.1, 22, 22.1, 24.1, 25, 29-30, 35, 37.1, 38-41, 43-47, 49, 50, 52, 53, 54.1, 55, 55.2, 56, 56.1, 58-60, 62, 63, 65.1, 66-71, 73, 75, 76, 78, 91, 96-102, 104, 105, 107, 109, 110, 112-115.2, 117, 119-120, 124, 124.1, CLEC WI 1, CLEC WI 5, CLEC WI 6, CLEC WI 7, CLEC WI 8, CLEC WI 9, CLEC WI 11, C BLG 3, C BLG 4, C BLG 5, IN 1, MI 2, MI 11, MI 13, MI 15, WI 1, WI 2 and WI 9.
- As noted here with the April 20, 2006 posting, AT&T has discovered a problem with the Affiliate results for PM 65.1 8dB Loop measurement for the states of Illinois, Indiana, Ohio, and Wisconsin. The number of loops identified as "in-service" in calculating the Affiliate 8dB Trouble Report Rate

has been found to be overstated. While the correct volume is being identified, the following steps have been taken: 1) March 2006 through current results are reported against the Retail compare only - no Affiliate result has been generated; and 2) Remedies for February 2006 through current have been calculated against Retail only, as Affiliate performance is expected to improve once the correct volume is determined and restatement is made. Once the correct in-service volume has been determined, February and March 2006 results (and any subsequent months affected) will be restated, with any additional remedies due CLECs, or overpayments made by AT&T, handled according to the terms of the applicable remedy plan.
