

Web Site News As Of November 05, 2008

Welcome to the Performance Measurements web site for Illinois, Indiana, Michigan, Ohio & Wisconsin.

September 2008 results are now available for Illinois, Indiana, Michigan, Ohio & Wisconsin.

Effective October 20:

Please Note:

- As noted here with the April 20, 2006 posting, AT&T discovered a problem with the Affiliate results for PM 65.1 8dB Loop measurement for the states of Illinois, Indiana, Ohio, and Wisconsin. The number of loops identified as in-service in calculating the Affiliate 8dB Trouble Report Rate was found to be overstated. Therefore, February 2006 through June 2008 results were reported and remedies calculated against the Retail compare only. Once the correct in-service volume has been determined, February 2006 through June 2008 results (and any subsequent months affected) will be restated, with any additional remedies due CLECs, or overpayments made by AT&T, handled according to the terms of the applicable remedy plan.
