

Web Site News As Of November 22, 2010

Welcome to the Performance Measurements web site for Illinois, Indiana, Michigan, Ohio & Wisconsin.

**September 2010 results are now available for Illinois, Indiana, Michigan, Ohio & Wisconsin.
Effective October 20:**

Recalculated and Reposted Performance Measures:

Listed below are the measures for which previously reported results have been recalculated and reposted. AT&T makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- February and April 2010 results for performance measure 22 have been recalculated and reposted to correct a data processing error that inflated the Resale and UNE sub-measure results in Indiana, Michigan, Ohio, and Wisconsin.
- March and April 2010 results for performance measure 22 have been recalculated and reposted to correct a data processing error that resulted in the numerator and denominator of the MSPSC sub-measure being reversed.

Please Note:

It has been discovered that a bad data file was used in the processing of September 2010 results for performance measures 114, 114.1, and 115. This file failed to include all CHC orders for the month. Efforts are under way to fix this error and it is expected that corrected results will be published by October 31, 2010.
