

Web Site News As Of November 21, 2005

Welcome to the SBC Midwest Performance Measurements web site.

October 2005 performance results for SBC Midwest performance measurements are now available.

Recalculated and Reposted Performance Measures:

Listed below are the measures for which previously reported results have been recalculated and reposted. SBC/Midwest makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- June through September 2005 results for performance measures 115.1 and 115.2 have been recalculated and reposted to correct for a coding problem that did not correctly identify the date and time a trouble report was submitted on a completed order.
- June through September 2005 results for performance measure 115.2 have been recalculated and reposted to correct for a coding problem that generated an incorrect numerator that understated SBC's wholesale performance.
