

Web Site News As Of December 5, 2005

Welcome to the SBC Midwest Performance Measurements web site.

October 2005 performance results for SBC Midwest performance measurements are now available.

Recalculated and Reposted Performance Measures:

Listed below are the measures for which previously reported results have been recalculated and reposted. SBC/Midwest makes available a listing of the recalculated and reposted performance measurement results that have also been restated (changed from the originally posted result) in the Reports section of this website. These reports are available for both CLEC-aggregate results and CLEC-specific results, and are accessed in the same manner as existing performance measurement reports.

- July and August 2005 results for performance measures 120 and 121 have been recalculated and reposted to correct for coding problems that caused BFRs for Illinois, Indiana, Ohio, and Wisconsin to be reported as Michigan BFRs during July, overstating Michigan volumes and resulting in no volume being reported in the other four states, and two MI BFRs in July and one MI BFR in August to not be reported.
- June 2005 results for performance measure 65.1 have been recalculated and reposted to include trouble reports that were unreported due to the inadvertent truncation of a file during results processing.
- October 2005 results for performance measure 58 have been recalculated and reposted to include retail orders that were excluded due to a results processing error.

Please Note:
